St. Peter’s Health Partners Medical Associates, P.C., has an excellent full time employment opportunity for a Board Certified Nurse Practitioner with interest and experience in Geriatrics, Hospice, Palliative Care and/or Home Healthcare to join the Home Based Primary Care team located in the Capital District, New York area.

The Home Based Primary Care team manages the care of homebound patients residing in Albany, Rensselaer, and Southern Saratoga counties. A team of three Nurse Practitioners work with a collaborating physician experienced in the care of chronically ill/geriatric patients. One Nurse Practitioner serves as the Practice Manager in addition to managing a caseload of patients, and the other two Nurse Practitioners have a caseload of assigned Primary Care patients within a designated geographic area/county. The Nurse Practitioners are supported by a full time Senior Registration Associate and a full time Registered Nurse Care Manager. In addition, per diem Nurse Practitioners assist with on-call rotation, one covering most weekends and one assisting in the rotation. This program exemplifies the Triple Aim in healthcare: better health/outcomes, better patient/family satisfaction, and lower total cost of care.

The providers serve as the patient’s Primary Care Provider, either long-term or on a transitional basis (3-4 months) to stabilize readmissions and then return to the patient’s original office-based Primary Care Provider. Each provider manages a caseload of
approximately 100-120 homebound patients, 80 years of age upon admission on average, 77% with advanced illness/multiple chronic conditions, 17% bariatric, 12% without a current Primary Care Provider and many not having been seen by their Primary Care Provider in a while due to difficulties getting to the office.

Patients are referred by their Primary Care Provider, and hospitals/rehab centers. The team works closely with providers across SPHP Medical Associates in the Medicare Shared Savings program and collaborating in the care of those who are homebound to ensure access to primary care. The team’s office is co-located with our comprehensive home health services to facilitate close communication with an interdisciplinary team involved in the patient's care.

Applicants must be Board Certified in Adult Gerontology or Family Nurse Practitioner Certification. New York State licensure and DEA required. Applicants must have at least one to two years of experience working with an elderly population.

This is an exciting opportunity for the right Nurse Practitioner to join St. Peter's Home Based Primary Care team.

RECRUITMENT PACKAGE
