OPPORTUNITY HIGHLIGHTS

Trinity Health Of New England Medical Group has an excellent full time employment opportunity for a Board Certified or Board Eligible Psychiatry physician to join an expanding behavioral health team at Johnson Memorial Hospital located in Stafford Springs, Connecticut.

Join a collaborative inpatient psychiatry unit providing adult and general psychiatric services for this 18-bed inpatient unit. This care unit is fully staffed with an occupational and group therapist, social work support for individual therapy and case management, and a dedicated insurance utilization review team. The inpatient team also enjoys regular medical and surgical support for any non-psychiatric issues, including routine H&P’s.

Here you’ll be part of a dynamic team with credentialing at both Johnson Memorial Hospital and St. Francis Hospital and Medical Center. An affiliation with the Quinnipiac University Frank H. Netter School of Medicine offers you a faculty appointment and opportunities to supervise and teach medical students rotating through the unit during their internships.
In this role, you would be the primary physician for the unit and will be covering the caseload with supervised support from a full time APRN. Additional responsibilities may include providing psychiatric consultations for patients admitted to the ED or medical/surgical units, but the average volume of consultation cases is low.

This is a full time opportunity with a favorable 9:00 am to 5:00 pm weekday schedule with opportunities to earn additional income with weekend shifts. The successful candidate should be an experienced Board Certified or Board Eligible Adult or General Psychiatrist with at least three years of inpatient experience.

Trinity Health Of New England is proud of its history of provider collaboration. Our practice model empowers our physicians to work at their highest level, while allowing time for professional development and family life.
