   - Please visit [optumrx.com/oe_trinityhealth/landing](http://optumrx.com/oe_trinityhealth/landing) and choose the medical plan that you are interested in enrolling.

10. **Why is there a separate card for contraceptive coverage?**
    - Under the health care reform law (Affordable Care Act), most health plans must cover contraceptive services for females without charging any copay, coinsurance, or deductible.
    - Because of a religious accommodation, Trinity Health is exempt from providing coverage for contraceptives under the Trinity Health medical plans. Trinity Health does provide coverage for medically necessary contraceptives.
    - While contraceptive coverage is not available under the Trinity Health medical plans (which include prescription drug coverage), contraceptive coverage required by the Affordable Care Act is provided by BCBSM and OptumRx.
    - Benefits-eligible colleagues and their dependents enrolled in a Trinity Health medical plan should contact BCBSM and OptumRx to discuss the contraceptive coverage under the plan and the options that are available at no cost.

11. **What is the cost of my benefits?**
    - The cost for your benefits will be determined based on the plans that you choose and who is covered. More information will be included in the Benefits Guide.
    - Contribution levels for the medical and pharmacy plans are based on the Social Security taxable wage base ($160,200 for 2023, indexed annually) to ensure our benefit plan cost-sharing model is appropriately aligned with our colleagues’ income levels. The amount you pay for medical and pharmacy coverage is based on your annual base salary (your base rate of pay times your budgeted hours, including productivity pay) and your participation in the Well-Being programs. If at any time during the 2024 plan year, you earn $160,200 or more, you will pay a higher premium contribution per pay period for your medical and pharmacy insurance.
12. What is going to happen to my deductible and out-of-pocket maximums for medical and dental insurance?
   - Your current North Ottawa Community Health System medical and dental insurance deductible and out-of-pocket maximums for medical and dental insurance will not carry over to your new BCBSM and Delta Dental plans. However, your medical and dental deductible and medical out-of-pocket expenses incurred under your newly elected medical and dental plans with Trinity Health from December 24, 2023 through December 31, 2023 will transfer to your calendar year 2024 medical and dental plans with Trinity Health. Please note, this process may take up to 60 days following January 1, 2024. 13. Will I have to change doctors/providers?
   - No, you will not need to change doctors, but you should consider your provider options to ensure you are using doctors who meet both your medical needs and your budget. All three medical plan offer two network tiers, which provide colleague with a choice of where to get coverage:
     - Tier 1: Trinity Health network facilities and aligned providers
     - Tier 2: Medical plan in-network providers (i.e., BCBSM)

17. How do I receive the full incentive for a lower health insurance premium cost?
   - Beginning January 1, 2024, colleagues must complete activities in Live Your Whole Life to earn points to continue to receive the full incentive amount. All colleagues will begin the year at the lower premiums, however, all colleagues and spouses/eligible adults insured through one of the Trinity Health medical plans will need to earn their points each quarter in Live Your Whole Life to maintain the incentive. 24. What is the paid holiday benefit for Trinity Health?

Part time colleagues would get a prorated amount of time based on their FTE status.

26. Will I be eligible for a float holiday as of December 24, 2023?
