

New Benefit The Work Number^{AE} Provides Fast Secure Proof of Employment Income

2/12/18 2:48 PM

Trinity Health now uses The Work Number to provide automated employment and income verifications for our colleagues. It's a fast and secure way to provide proof of your employment or income—a necessary step in many of today's life events involving credit, financing or securing of benefits or services.

How does it work?

- Trinity Health securely transmits employment and income data to The Work Number on a regular cycle, so the information remains current.
- When you apply for credit or other services where proof of employment or income is required, you provide consent to the credit grantor to verify that information when signing the application.
- The verifier—who has been carefully screened and credentialed before gaining access to the system—uses the **Trinity Health employer code: 14229** and your Social Security Number to look up your record on The Work Number database.
- The verifier must provide a valid reason or permissible purpose for requesting the information, as defined by the Fair Credit Reporting Act (FCRA).
- With the above conditions met, the verifier can validate your employment or income in seconds, accelerating the decision process and helping you obtain the credit you deserve.

In most cases, the company requesting verification of your employment or income will automatically check The Work Number. You can also ask them to call The Work Number directly at 800-367-5690 or visit www.theworknumber.com.
