COVID_19 Response Team Owner: Logistics - Security

Date of Last Review: 10/20/2020

What's Changed: No changes made during the 10/20/2020 review.

Morgue Capacity: State Mass Fatality Management Plans

In the event you foresee reaching the limit of your Ministry's morgue capacity, the following resources have been compiled to aid your ministry location.

State resources/State emergency operations plans:

[Click here](#) to access state-by-state mass fatality plans. Resources you will find include a link to states' mass fatality management plans or emergency operations plans, and notes that explain each plans' process at a very high level. Please be sure you coordinate and advise your local Incident Command team/officer(s) when engaging state resources.

Work with state resources (Office of Emergency Management, disaster prep resources, etc) or FEMA to determine if a refrigerated trailer can be made available to aid operations at your ministry.

Vendor rental options- Refrigerated Trailers (Supplies may be limited):

Should a refrigerated trailer be unavailable via state or FEMA mutual aid, please engage one of the vendors below to rent or purchase a refrigerated trailer. Please note that trailers range in size from 40'-53' in length and may require utilities to be managed (electric or diesel). Please ensure you prepare accordingly to manage these needs and make space available on your campuses, as the need may necessitate:

Refrigerated Trailers

- Mortuary Response (through Grainger – HealthTrust contract)
 - Jeff Jackson
 - imj@mortuaryresponse.com
 - 864-844-5549
 - <https://www.mopec.com/mortuary-response-solutions/>
