CORONA**VI**RUS **D**ISEASE 2019 (COVID-19)

Pre-Shift, Remote Screening of Colleagues for Symptoms, Infection or Close Contact Exposure

Audience: Providers/Colleagues

Revision Date: 10/13/2022

Version: Version #3

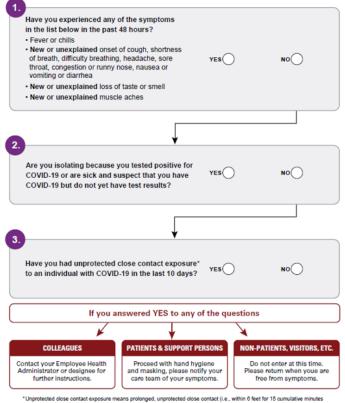

COVID-19 Response Team Owner: Clinical and Operations

Date of Last Review: 10/13/2022

What's Changed: Health care personnel (HCP) read and respond to pre-shift COVID-19 screening questions at facility entrances prior to entering any patient care area, clinic, or home setting

ENTRANCE SCREENING QUESTIONS

Screening Healthcare Personnel (HCP), Providers, Colleagues, Volunteers, Students, and Vendors ("HCP" for purposes of this document) for the potential to transmit the SARS-CoV-2 (COVID-19) virus remains a top priority for Trinity Health. All HCP are required to review the COVID-19 questions below before they enter any Trinity Health location or represent Trinity Health in the community. Positive responses to any questions related to test results, symptoms, or high-risk exposures require the colleague to refrain from entering and seek further evaluation. The following questions must be reviewed each time you enter a Trinity Health location:

on longer over a 24 hr period) with a patient with confirmed SARS-CoV-2 infection. For healthcare personnel unprotected close contact means being within 6 feet for 15 cumulative minutes over a 24 hr period where required PPE was not worn.
