New Supply Chain Email Box Accepting all COVID-19 Supplier Inquiries

Audience: All Colleagues

Revision Date: 8/21/2020

Version: Version #2

What's New: New email address

New Supply Chain Email Box Accepting all COVID-19 Supplier Inquiries

Manufacturers, suppliers and brokers have been reaching out across the organization with offers to provide personal protective equipment (PPE). To handle this influx, Supply Chain has opened a mailbox to accept all inquiries regarding supplies related to COVID-19. If you receive such an inquiry, please forward the supplier's information to SupplyChainRequestsandQuestions@trinity-health.org. Strategic Sourcing will quickly verify business credentials and assess the supplier's ability to provide clinically acceptable products. Qualified suppliers will be asked to submit formal offers to Strategic Sourcing for procurement of items on behalf of the system. This is a critical step to verify that we are engaging with trustworthy suppliers during this unprecedented time.

If you have questions about laboratory supplies, capital equipment, infection prevention guidance, clinical equivalents and requests to access inventory from Trinity Health's Dedicated Integrated Service Center (DISC), please submit those questions and requests to the email box given above.
