

Do not enter if you are experiencing **fever** and upper respiratory symptoms including **dry cough** or **shortness of breath**.

**For patients experiencing fever or upper respiratory symptoms, <LOCAL INSTRUCTIONS HERE >**

**This facility is seeing patients seeking treatment outside of the above symptoms.**

Patients with no symptoms of fever or upper respiratory illness, or who have preventive care appointments are welcome to proceed.

### **PATIENTS ONLY**

If someone is accompanying you, please have them wait in the car. (Exceptions for minor children who need a parent and others who need special assistance).
