

CORONAVIRUS DISEASE 2019 (COVID-19)

Resource Availability and Need Requests

Audience: RHM Incident Command Logistics Section Chiefs; Regional Chief Human Resources Officers

Revision Date: 3/29/2020

Version: Version #2

Resource Availability and Need Requests

Health Ministries with people resources available for redeployment to other regions may have their Resource Managers [use this link](#) to add current information regarding these colleagues.

Health Ministries may also use [this form](#) to outline resource staffing needs that are unable to be filled on a local or regional basis.

Note: Resource Managers indicating resource availability or staffing needs through these forms should do so only under the direction of their local Incident Command Logistics Team.

Finally, if your Health Ministry is looking for assistance to quickly setup a staffing redeployment process please send an email to HQTHSHAREDMBCOVID19ResourceRedeployment@trinity-health.org. A standard process and a QuickBase application have been developed for Health Ministries to use.
